

AGRISEPT

Antibiotic / Antiseptic / Sanitizer

Agrisept is a natural antibiotic with considerable research to support it. It kills bacteria, viruses, strep, e-coli, candida, salmonella, herpes, etc. Ingredients: Grapefruit, Lemon, Lime, and Tangerine Seed Extracts in a base of Vegetable Glycerin. Agrisept will not kill the beneficial bacteria in the body.

We have used this product successfully for over 30 years. For colds & flu we take 11 drops, 6-7 times per day, diluted in water, orange juice, or yogurt to mask the bitter taste.

Agrisept diluted in water is also great for washing fruits and vegetables, treating cuts and scrapes, and sanitizing surfaces. It is a great preparedness product.

Orders Due Friday, March 13, 2026.

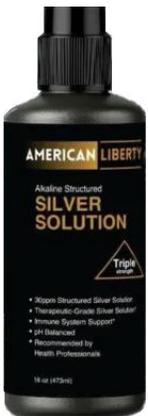

Name:		Phone:		Email:	
Address:					
		Item	Price Each	Qty	Subtotal
		Agrisept-L, 1 oz. bottle	\$15.00		
		Agrisept-L, case of twelve 1 oz. bottles	\$170.00
